DRAFT AGENDA

This is the third in a series of hearings being held by the Assembly Committee on Jobs, Economic Development, and the Economy on the California Enterprise Zone Program and other geographically- targeted economic development area (G-TEDA) programs. Collectively, the G-TEDA programs represent one of the state's primary economic and workforce development initiatives.

In this hearing, presentations will focus on workforce training, small business development, and methods for measuring the effectiveness of the G-TEDA programs in bringing about positive change in California's economically disadvantaged communities.

I. Welcome, Introductions and Opening Statements

Chairman Pérez and Members of the Assembly Committee on Jobs, Economic Development, and the Economy will give opening statements and frame the key issues to be examined during the hearing. Mr. Tony Young, Councilmember of San Diego will give brief welcoming remarks.

The G-TEDA programs were established over two decades ago with the expectation that the program would support new job opportunities in lower income and historically overlooked communities.
